BRAIN RESEARCH

VOL. 521 NOS. 1/2 CONTENTS 25 JUNE 1990

Research Reports

Grafting of midbrain neurons into the hippocampus restores serotonergic modulation of hippocampal activity in the rat
G. Richter-Levin and M. Segal (Israel) 1

Neuron-associated astroglial cells express β- and α_1-adrenergic receptors in vitro
L.S. Lerea and K.D. McCarthy (U.S.A.) 7

Pre- and postsynaptic distribution of μ, δ and κ opioid receptors in the superficial layers of the cervical dorsal horn of the rat spinal cord
D. Besse, M.C. Lombard, J.M. Zajac, B.P. Roques and J.M. Besson (France) 15

Somatostatin-immunoreactive neurons in the rat striatum: effects of corticostriatal and nigrostriatal dopaminergic lesions
P. Salin, L. Kerkerian-Le Goff, V. Heidet, J. Epelbaum and A. Nieoullon (France) 23

Anesthesia influences the outcome from experimental spinal cord injury
S.K. Salzman, A.A. Mendez, S. Sabato, W.A. Lee, E.B. Ingersoll, I.-H. Choi, A.S. Fonseca, C.A. Agresta and G.M. Freeman (U.S.A., Israel, Korea) 33

Developmental changes in blood– nerve transfer of albumin and endoneurial albumin content in rat sciatic nerve
A. Weerasuriya, G.L. Curran and J.F. Poduslo (U.S.A.) 40

Lithium augments *fos* protooncogene expression in PC12 pheochromocytoma cells: implications for therapeutic action of lithium
V.D. Kalasapudi, G. Sheftel, M.M. Divish, D.F. Papolos and H.M. Lachman (U.S.A.) 47

Redistribution of neuronal lysosomes induced by colchicine: an electron microscopic quantitative study
V.J. Roberts, J.M. Frigo, L.M. Candell and C. Gorenstein (U.S.A.) 55

The effect of antimitotic agents on the intraneuronal distribution of lysosomes
V.J. Roberts and C. Gorenstein (U.S.A.) 62

Characterization of the origins of astrocyte response to injury using the dopaminergic neurotoxicant 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine
J.P. O'Callaghan, D.B. Miller and J.F. Reinhard Jr. (U.S.A.) 73

Localization of serotonin immunoreactivity in cephalopod visual system
T. Kito-Yamashita, C. Haga, K. Hirai, T. Uemura, H. Kondo and K. Kosaka (Japan) 81

Reflex effects on γ fusimotor neurones of chemically induced discharges in small-diameter muscle afferents in decerebrate cats
K. Jovanović, R. Anastasijević and J. Vučo (Yugoslavia) 89

Properties of nociceptive and non-nociceptive neurons in trigeminal subnucleus oralis of the rat
R. Dallel, P. Raboisson, A. Woda and B.J. Sessle (France, Canada) 95

Differential effects of advancing age on neurotransmitter cell loss in the substantia nigra and striatum of C57BL/6N mice
T.H. McNeill and L.L. Koek (U.S.A.) 107

A prolonged post-tetanic hyperpolarization in rat hippocampal pyramidal cells in vitro
B.E. Alger, T.A. Pitler and A. Williamson (U.S.A.) 118

Differential effects of morphine on histamine metabolism in brain and spinal cord of mice
S.P. Licata, J.W. Nalwalk and L.B. Hough (U.S.A.) 125

Expression of the neuron-specific glycoprotein GP50 by granule cell cultures
T. Paladino, P.W. Beesley, S. Nicholson and J.W. Gurd (Canada, U.K.) 131

Inhibition by trypsin of the high-affinity acidic amino acid transport system in C6 glioma cells
J. Deas, I.A. Silver and M. Erecińska (U.K., U.S.A.) 138

Na^+-dependent GABA transport system scavenges endogenous external GABA and prevents desensitization of $GABA_A$ receptors in rat cerebrocortical synaptoneurosomes
W.B. Im, D.P. Blakeman and J.P. Davis (U.S.A.) 143

Modulation of hippocampal primed burst potentiation by anesthesia
D.A. Engstrom, M.C. Bennett, K.E. Stevens, R.L. Wilson, D.M. Diamond, M. Fleshner and G.M. Rose (U.S.A.) 148

Catecholamine reinnervation of supraoptic nucleus after deafferenting mechanical lesions and superior cervical ganglionectomy; histofluorescence and functional assessments in young adult and aged rats
C.J. Phelps and S.W. Carlson (U.S.A.) 153

Spinal dorsal horn neurons in elevated extracellular calcium: cell properties and spontaneous discharges
E. Bernard, L. Urbán and G.G. Somjen (U.S.A.) 161

Behavioural modification of bulbospinal serotonergic inhibition and morphine analgesia
R.J. Milne and G.D. Gamble (New Zealand) 167

Stimulant-conditioned locomotion is not affected by blockade of D_1 and/or D_2 dopamine receptors during conditioning
M.T. Martin-Iverson and D.J. McManus (Canada) 175

Peptide–amine interactions in the hypothalamic paraventricular nucleus: analysis of galanin and neuropeptide Y in relation to feeding
S.E. Kyrkouli, B.G. Stanley, R. Hutchinson, R.D. Seirafi and S.F. Leibowitz (U.S.A.) 185

Phorbol esters increase insulin binding in astrocytic glial but not neuronal cells in primary culture from the brain
L.M. Mudd and M.K. Raizada (U.S.A.) 192

Modulation of memory processing by glutamic acid receptor agonists and antagonists
J.F. Flood, M.L. Baker and J.L. Davis (U.S.A.) 197

(contents continued)

Mapping of serotonin-like immunoreactivity in the ventral nerve cord of crayfish
D. Real and G. Czternasty (France) 203
A subset of progesterone target neurons have axonal projections to the midbrain
L.L. DonCarlos and J.I. Morrell (U.S.A.) 213
Methylmercury uptake in rat primary astrocyte cultures: the role of the neutral amino acid transport system
M. Aschner, N.B. Eberle, S. Goderie and H.K. Kimelberg (U.S.A.) 221
Regulated release of multiple peptides from the bag cell neurons of *Aplysia californica*
R.W. Newcomb and R.H. Scheller (U.S.A.) 229
Some enkephalinergic pathways in the brain of *Rana esculenta:* an experimental analysis
G. Lázár, J.L. Maderdrut and I. Merchenthaler (Hungary, U.S.A.) 238
Increased efflux of a haemoglobin-like protein and an 80 kDa protease into push–pull perfusates following the induction of long-term potentiation in the dentate gyrus
M.S. Fazeli, M.L. Errington, A.C. Dolphin and T.V.P. Bliss (U.K.) 247
Characterization and mechanism of glutamate neurotoxicity in primary striatal cultures
A. Freese, M. DiFiglia, W.J. Koroshetz, M.F. Beal and J.B. Martin (U.S.A.) 254
The correlation between excitatory amino acid-induced current responses and excitotoxicity in striatal cultures
W.J. Koroshetz, A. Freese and M. DiFiglia (U.S.A.) 265
Variation in the pattern of $[Ca^{2+}]_i$ change induced by acetylcholine in cultured hippocampal neurons
T. Iijima, Y. Kudo, A. Ogura, K. Akita and G. Matsumoto (Japan) 273
Gating of somatosensory input by human prefrontal cortex
S. Yamaguchi and R.T. Knight (U.S.A., Japan) 281
Analysis of facial cold receptor activity in the rat
M. Heinz, K. Schäfer and H.A. Braun (F.R.G.) 289
Desensitization of the dopaminergic system in bovine retina following incubation with high potassium
J.M. Ackerman and M.E. Gnegy (U.S.A.) 296
Binocularity in the lateral geniculate nucleus of the alert macaque
C.E. Schroeder, C.E. Tenke, J.C. Arezzo and H.G. Vaughan Jr. (U.S.A.) 303

Short Communications

Prefrontal cortical dopamine depletion enhances the responsiveness of mesolimbic dopamine neurons to stress
A.Y. Deutch, W.A. Clark and R.H. Roth (U.S.A.) 311
The substance P(1–7) fragment is a potent modulator of substance P actions in the brain
M. Herrera-Marschitz, L. Terenius, T. Sakurada, M.S. Reid and U. Ungerstedt (Sweden) 316
Comparative study of esterases in brains of the vertebrates
V. Lakshmipathi and T.M. Reddy (India) 321
A role of excitatory amino acids in the activation of locus coeruleus neurons following cutaneous thermal stimuli
M. Hajós and G. Engberg (Sweden) 325
Substance P-like immunoreactivity, choline acetyltransferase activity and cholinergic muscarinic receptors in Alzheimer's disease and multi-infarct dementia
T. Sakurada, I. Alufuzoff, B. Winblad and A. Nordberg (Japan, Sweden) 329
Uncoupling of cerebral blood flow and glucose metabolism in conscious rats with chronic renal hypertension
K.M. Wall, D.S. Wainman, S.W. Shaver and P.M. Gross (Canada) 333
Transient increase in vimentin in axonal cytoskeletons during differentiation in NB2a/d1 cells
T.B. Shea (U.S.A.) 338
Differential induction of class I and II MHC antigen expression by degenerating myelinated and unmyelinated axons
A.M. Smetanka, K.T. Yee and R.D. Lund (U.S.A.) 343
Inhibition of serotonin uptake into mouse brain synaptosomes by ionophores and ion-channel agents
M.E.A. Reith and C.A. O'Reilly (U.S.A.) 347
Bötzinger expiratory neurons may inhibit phrenic motoneurons and medullary inspiratory neurons during vomiting
A.D. Miller and S. Nonaka (U.S.A.) 352
The early decay of long-term potentiation in the hippocampal CA1 region in vitro is reduced by activators of protein kinase C
F. Asztely, E. Hanse and B. Gustafsson (Sweden) 355
